

Arjunbabu Saila

Software Engineer | AI Engineering

sailaarjunbabu@gmail.com | 7416844792 | Hyderabad, TG | [Linkedin](#) | [Github](#)

SUMMARY

Software Engineer with a strong foundation in AI-powered application development, cybersecurity, and full-stack integration. Proficient in Python, Java, React, and Node.js, with hands-on experience building scalable web solutions and security automation tools. Contributed to complex projects, including AI-driven documentation platforms and SIEM security assistants using Gemini API and Elasticsearch. Passionate about developing secure, efficient, and user-focused software applications through rigorous testing and debugging practices.

EDUCATION

CMR COLLEGE OF ENGINEERING AND TECHNOLOGY | Btech in CSE(CYBERSECURITY) Aug 2024 – Present
Hyderabad

Singareni Collieries Polytechnic College | Diploma in Computer Science Sep 2021 – Jul 2024
Mancherla

EXPERIENCE

Industrial Trainee - IT DEPARTMENT | Singareni Collieries Company Limited (SCCL) Dec 2023 – May 2024
Godavarikhani, Telangana

- Completed 6-month industrial training in the IT department, gaining exposure to enterprise systems, networking, and SAP-based data workflows.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, SQL, Bash

Databases: SQL, MS SQL Server, Firebase, Elasticsearch

Tools & Platforms: Git, GitHub, Linux, Windows, Postman, Docker

Development Practices: Object-Oriented Programming, Data Structures & Algorithms, API Integration, Debugging, Testing, Version Control

Security and Testing: OWASP Top 10, Penetration Testing, Unit Testing, Debugging, Kali Linux, Burp Suite

Web Development: React, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Vite, Node.js, Express.js, Spring Boot, REST APIs, Firebase

PROJECTS

AI Documentation Automation Platform

- Developed an AI-powered web application that automates technical documentation generation from project and code inputs. Built the application using React, TypeScript, Node.js, Express, and Gemini API.

CyberShield SIEM AI Assistant

- Built an AI-powered SIEM platform integrating Wazuh, Elasticsearch, and Gemini AI for threat hunting, incident investigation, and SOC automation. Developed a web-based interface to analyze security events and streamline security operations.
